C-UL US LISTED C-UL US Listing Mark

C-UL US C-UL US Classification Mark

RU US Recognized Component Mark for Canada and the United States

CE CE Marking is mandatory in EU countries, Iceland, Liechtenstein and Norway.

International Market Access

Having global vision to market your products to different parts of the world? UL's International Market Access Solutions help you meet the diverse entry requirements around the globe.

Throughout the world, UL has many offices that are members of the CB Scheme, the NCS and the CCA¹ Scheme, which are international certification schemes allowing mutual recognition of safety test reports among the signatory countries. With one set of testing at UL, you can gain multiple certifications across all signatory countries.

From mandatory national schemes to voluntary programs; from safety to EMC to various performance certifications, UL offers the broadest portfolio of certification marks.

¹ NCS — Nordic Certification Scheme, the reciprocal agreement among Denmark, Finland, Norway and Sweden
CCA — The CENELEC Certification Agreement in Europe

The Americas
